FEATURES		
Highway	Pipe/Power Line	Stream/Shoreline
Secondary Road	Ridge/Physical Feature	Intermittent Stream
Jeep Trail/Waterway/Entry	Property/Fence Line	River / Lake
Railroad	Nonvisible Boundary	Glacier
Inset	Out Area	

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

A 1 following a place name indicates that the place is coterminous with a CD, and a 2 indicates that the place is coterminous with a block.

A 3 following a place name indicates that the place is coterminous with a tract defined within a federally recognized American Indian reservation or off-reservation trust land for the purpose of providing data based on an American Indian tract boundary. The symbol for a tract boundary is a dashed line. If off-reservation trust lands cross state or county boundaries, the same symbol is used for the boundary. If the tract boundary is also a boundary, and, if so, constitutes a single tribal census tract entity.

A 4 following a block name indicates that the block number is repeated elsewhere in the block.
